

Funk/Soul/Jazz Trio “FlashBamPow”

“These guys are absolute monsters!”

Jeff Miers- Buffalo Evening News Critic

A quote from our website best sums up who we are: “We come on time, set up, blow everyone’s minds and leave.”

Power trio FlashBamPow’s intense live performances often flow between straight ahead jazz and funk, to improvisational jamming and eastern ragas. We’ve been very busy performing, writing new arrangements and experimenting. As a result, we have many new sounds to share with you.

We’re veteran performers with decades of stage, radio and recording experience. We love performing and we make sure to put on a show you can’t look away from.

Regionally, FlashBamPow has played at: The Music is Art Festival (Bflo.), Jazz 90.1 FM and WAYO FM in Rochester, Buffalo Riverworks, The NYS Cannabis Festival, Club Duende, Mohawk Place, Club Diablo and many more clubs and venues.

FlashBamPow is known as a highly expressive band that often employs surreal video and art in their live shows. The art is mostly created by guitarist Sean Madden, an award-winning artist who has exhibited his strange, surreal artwork globally.

Philadelphia drummer Paulie Cucinella pushes the group’s intense live energy with his funky, hip style of playing. Veteran bassist Martin Dorren also plays bass synthesizer, keyboards and sings. Sean Madden plays guitars and a digital sound device called a “Kaossilator,” which allows him to blend otherworldly soundscapes into the band’s arrangements..

All FlashBamPow shows are promoted via: Facebook, Instagram, YouTube, and Email. For our LinkTree Page: www.linktr.ee/FlashBamPow We also design our own unique posters. These posters are so awesome— people have taken them off of the walls where we’ve played. We sell them on our website now.
